LoomLite v4.0 - System Flow Diagrams

Visual Reference Guide for Architecture and Data Flow

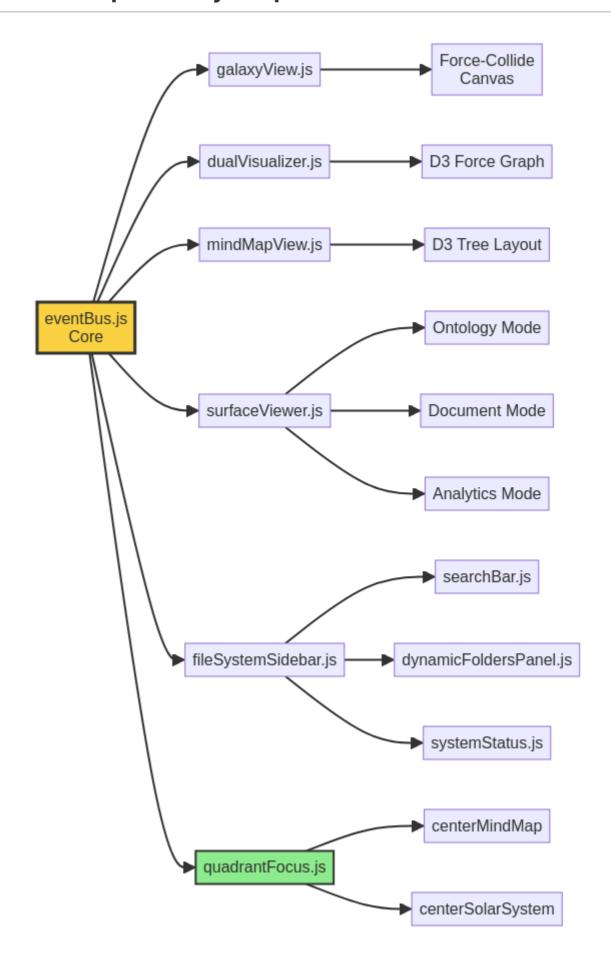

Table of Contents

- 1. <u>System Architecture Diagram</u>
- 2. Module Dependency Graph
- 3. Event Bus Flow
- 4. <u>User Interaction Flows</u>
- 5. <u>Data Flow Diagrams</u>
- 6. Focus Mode State Machine

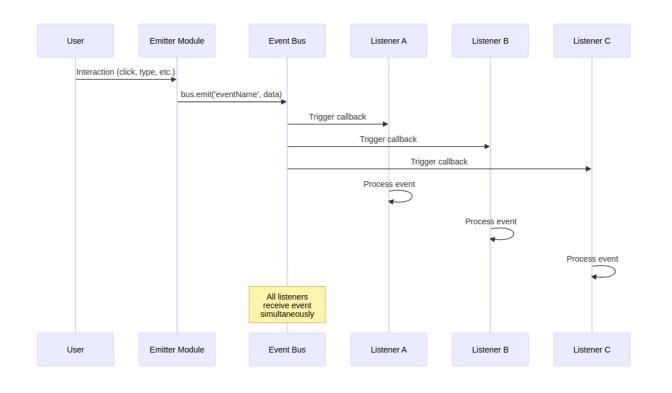

System Architecture Diagram

Module Dependency Graph

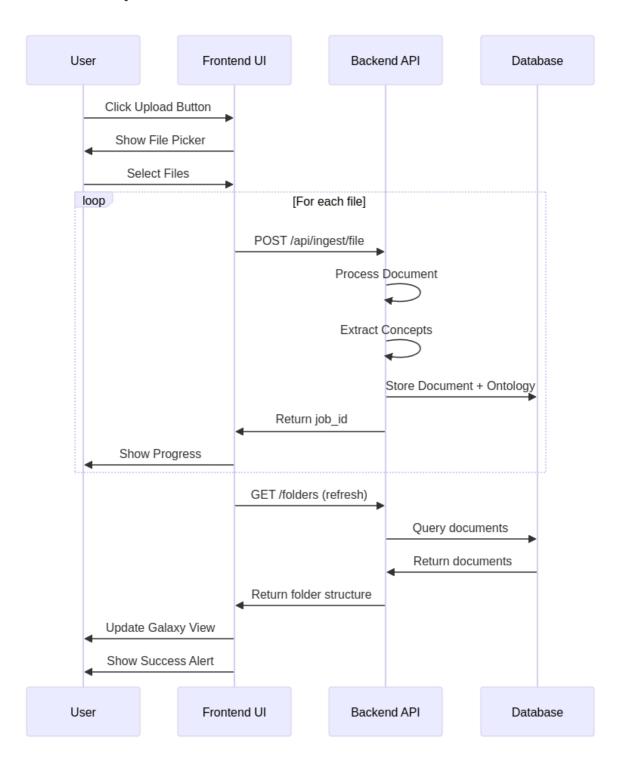

Event Bus Flow

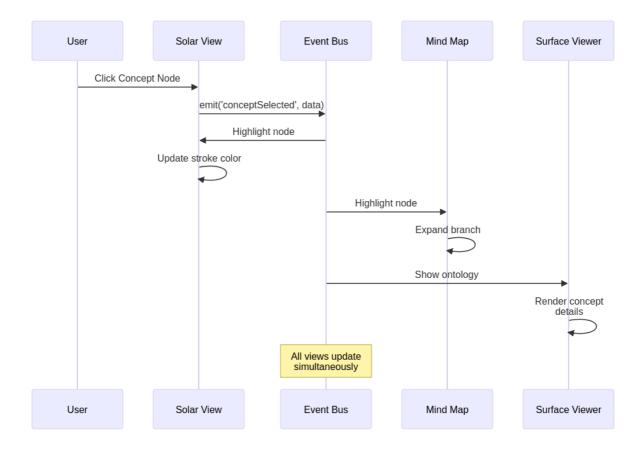

User Interaction Flows

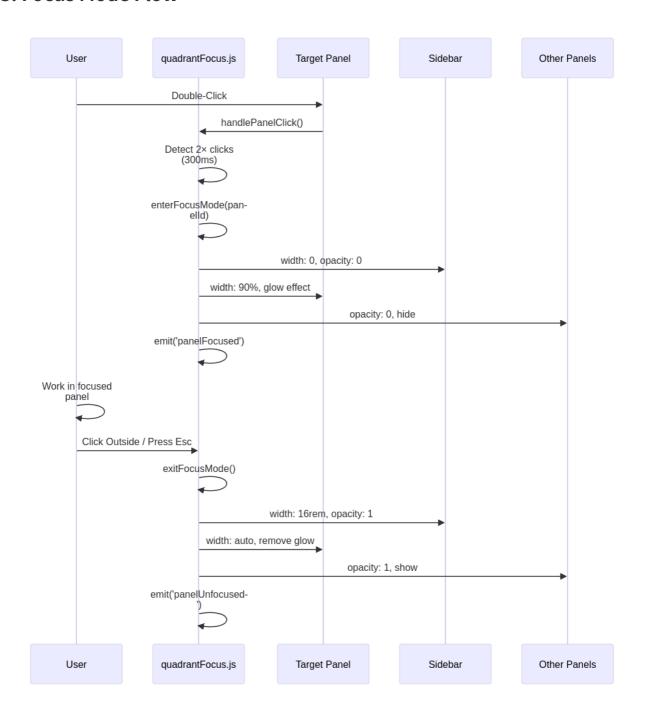

1. Document Upload Flow

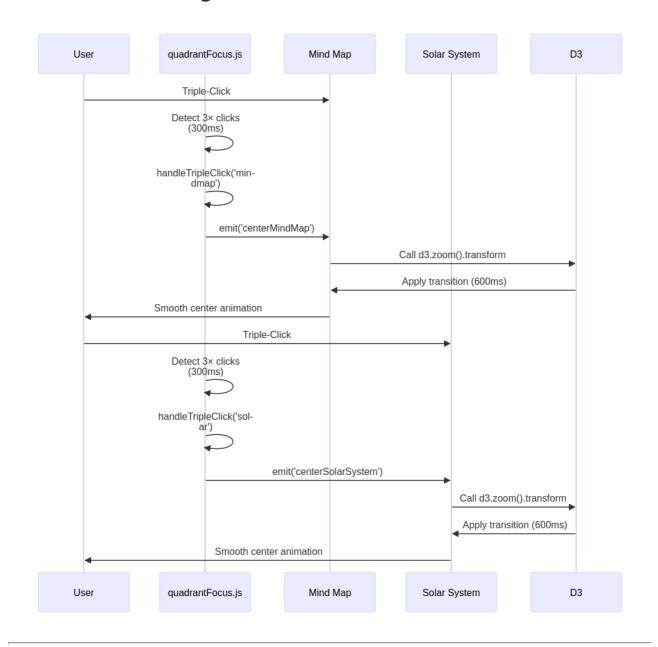

2. Concept Selection Flow

3. Focus Mode Flow

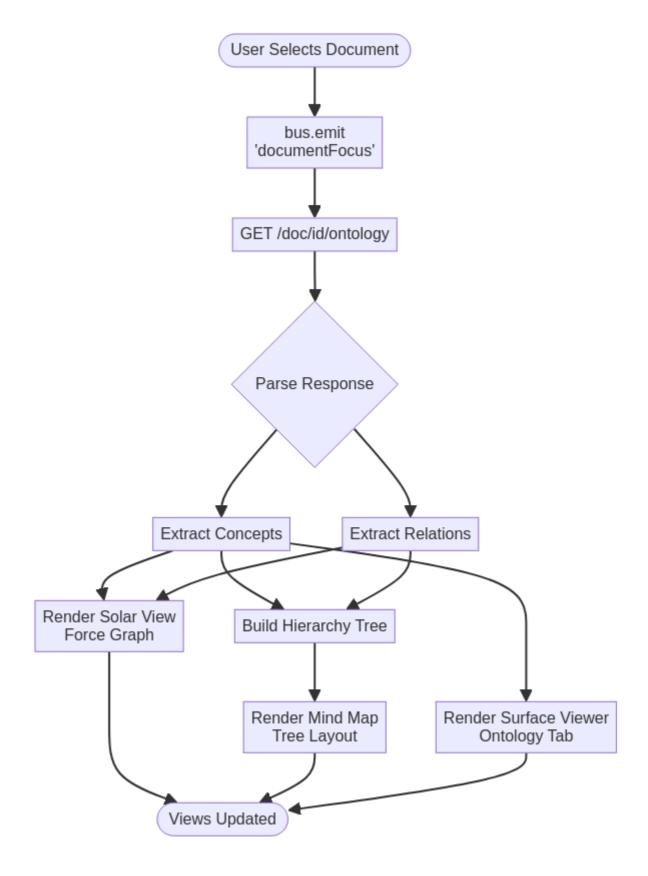

4. Semantic Centering Flow

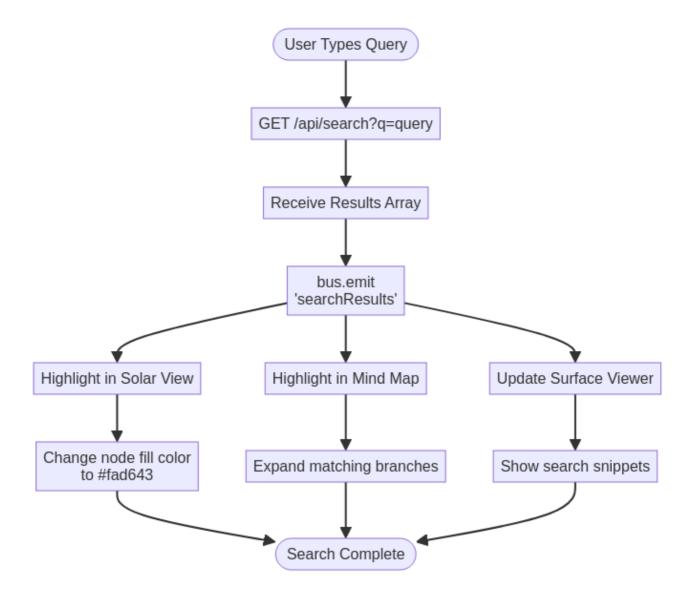

Data Flow Diagrams

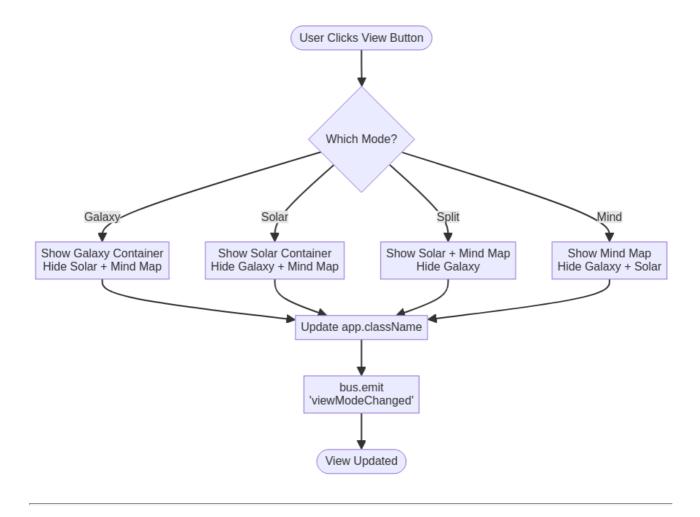

1. Document Ontology Loading

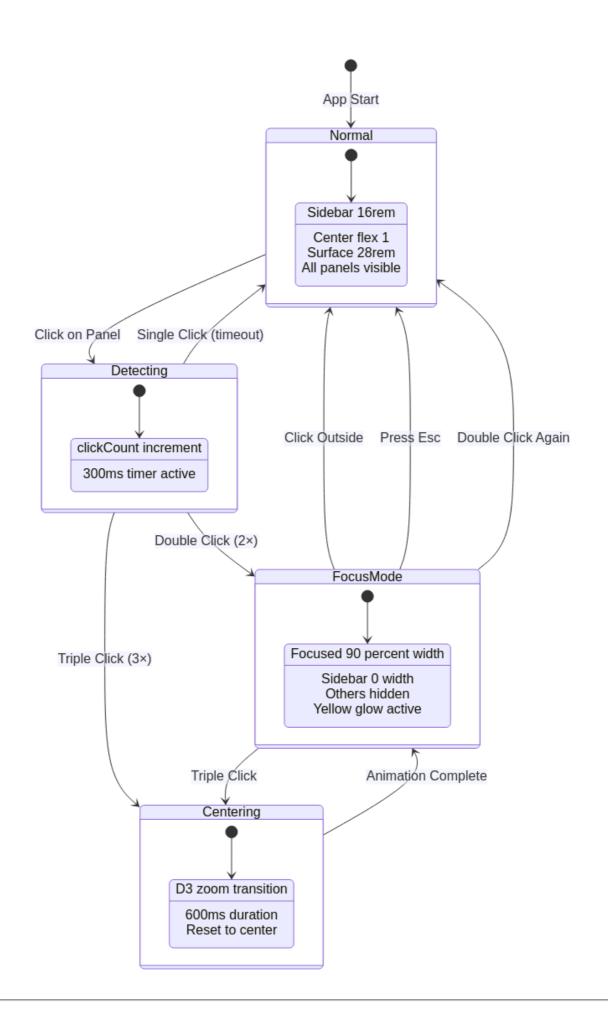

2. Search Result Highlighting

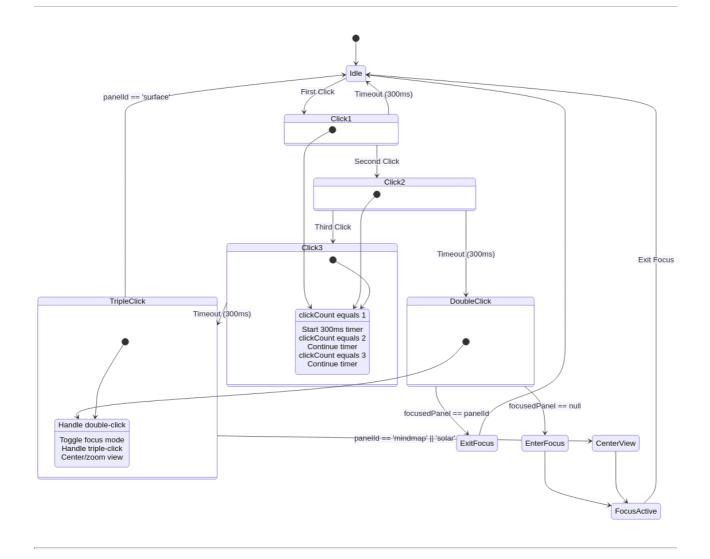

3. View Mode Switching

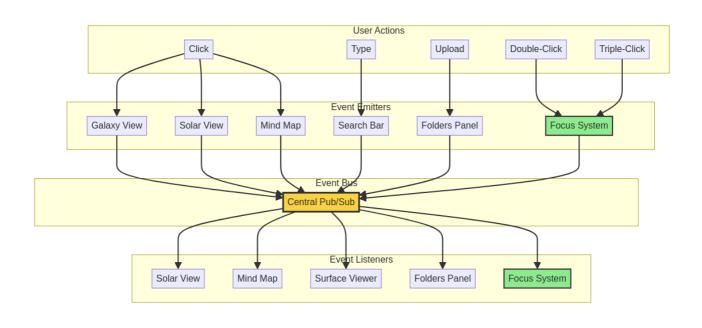

Focus Mode State Machine

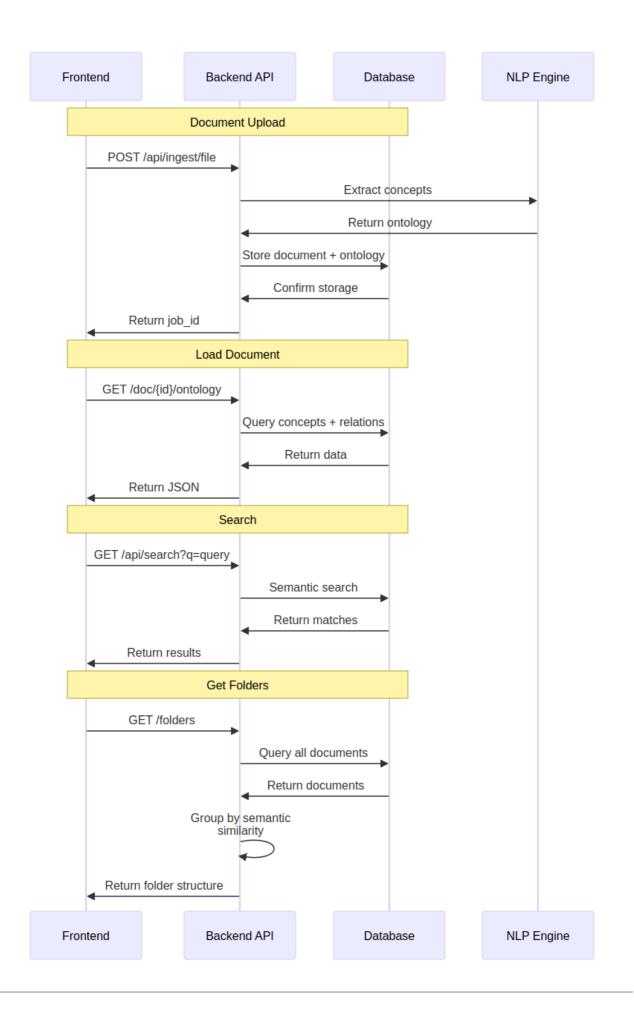

Click Detection State Machine

Component Interaction Map

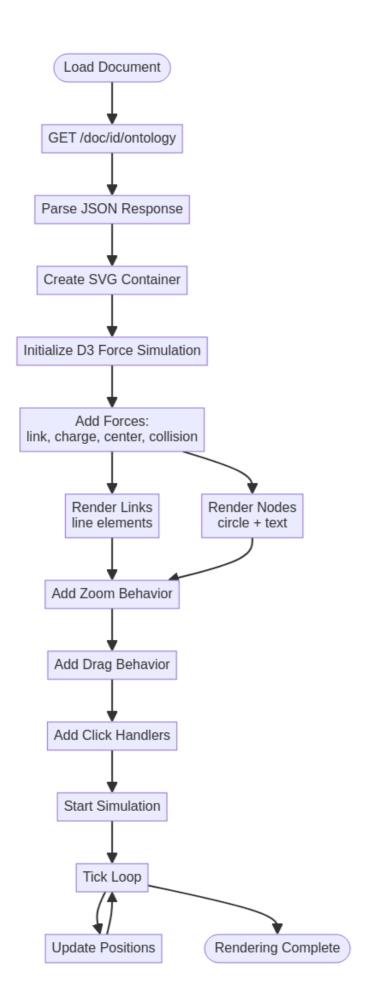

API Request Flow

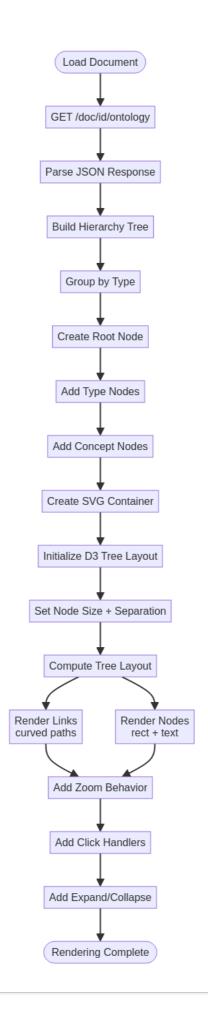

Rendering Pipeline

Solar System View Rendering

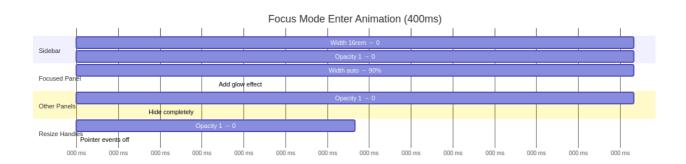

Mind Map View Rendering

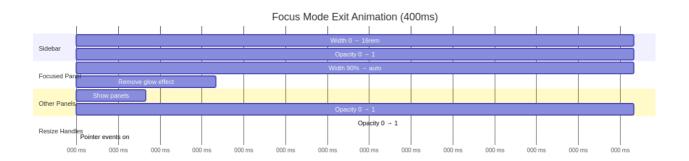

Focus Mode Transitions

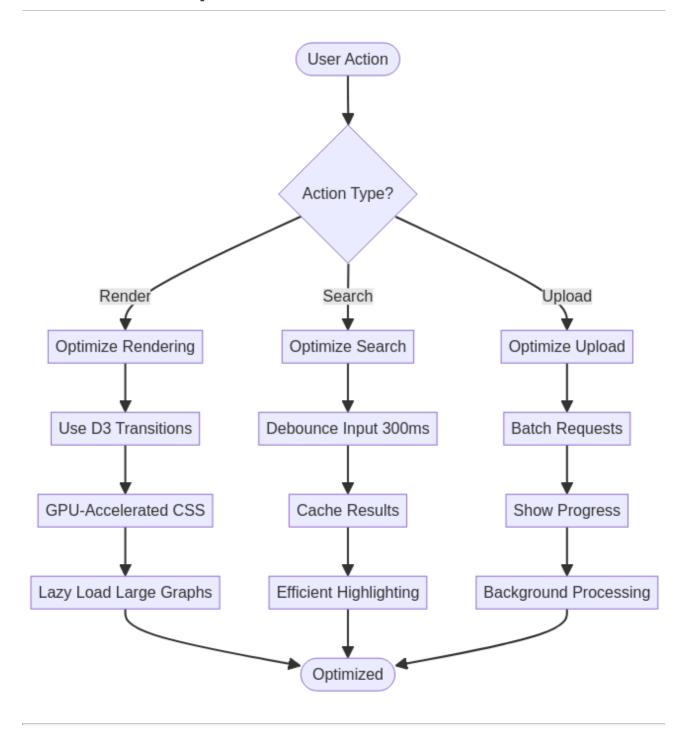

Enter Focus Mode Animation

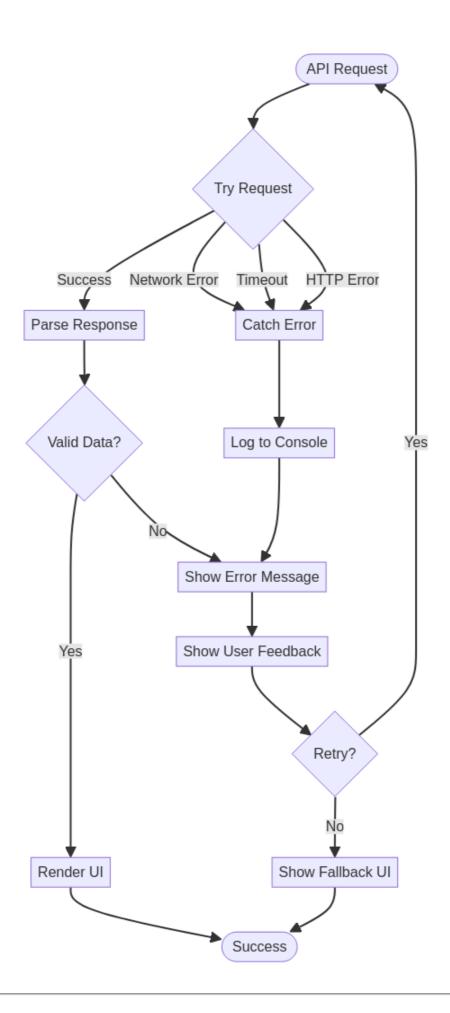

Exit Focus Mode Animation

Performance Optimization Flow

Error Handling Flow

Conclusion

These diagrams provide a comprehensive visual reference for understanding LoomLite's architecture, data flow, and interaction patterns. Use them alongside the Developer Handoff document for complete system understanding.
